

IT Services

STRATEGIC INSIGHTS FOR INFORMED DECISION-
MAKING AND SUCCESSFUL IT INITIATIVES

We provide strategic insights and expert guidance that empowers businesses to make informed decisions and achieve successful IT initiatives. With our proven expertise, we help organizations optimize processes, leverage technology, and drive digital transformation, ensuring they stay competitive in today's rapidly evolving business landscape.

We are a people first consultancy.

We're more than just a consultancy - we're a team of experts committed to improving the lives of our people and customers. With our veteran-owned business and diverse talent pool, we prioritize putting people first and empowering teams to help you hit your goals.

We prioritize veteran hiring.

We see the distinct value that veterans and transitioning service members bring to the marketplace. We are committed to connecting qualified veterans with great jobs. If you are looking to hire veterans tomorrow, call us today.

We get you to done.

We create crafted business solutions. From Contact Center Solutions to Staff Augmentation Services, we have what you need to create a plan and get your job done.

KEY FEATURES AND BENEFITS:

Outcome-Oriented Approach

Our dedicated team focuses on aligning technology and process improvements with your business goals, ensuring that every solution we provide delivers tangible and measurable results.

Strategic Business Insights

Our experienced consultants go beyond technical expertise to understand your business holistically. We conduct thorough analysis, identifying areas for improvement, and providing strategic insights.

Vendor-Neutral Recommendations

As an unbiased consulting partner we provide vendor-neutral recommendations. We assess your specific needs, evaluate available options, and recommend the most suitable solutions and vendors based on your requirements.

Strategic Technology Assessment

We evaluate and select the most suitable solutions based on factors such as scalability, compatibility, security, and cost-effectiveness, ensuring your IT initiatives are set for success.

Agile and Waterfall Methodologies

We tailor our approach to fit your project requirements, whether you need iterative and adaptive Agile methodologies or the structured and sequential nature of waterfall.

Efficient Process Integration

We excel at integrating existing processes into our solutions, allowing for a smooth transition, and maximizing the value of your current investments.

PAST PERFORMANCE:

Fortuna BMC showcased its expertise in reviewing the existing processes and systems of a California County. Our team conducted a thorough assessment, identifying the gaps and areas for improvement. We provided valuable insights through a comprehensive gap analysis, highlighting areas where enhancements were needed.

Additionally, our change management approach ensured a smooth transition during the deployment of the PeopleSoft time and reporting solution. Fortuna BMC established a clear and strategic roadmap, outlining the steps to successfully implement the new system.

Our dedication to delivering exceptional outcomes resulted in a seamless and effective deployment, empowering the California County to optimize their time and reporting processes with confidence.
